

Learning basic computer skills are proven to help seniors sharpen their memory, build confidence, and promote overall cognitive fitness. That's why Ecumen Pathstone Living offers our ECUMEN Connects program where residents, families & friends, and staff can stay connected through the internet. Using Sitelligence technology and with a little help from our staff, residents, families and friends have the ability to keep connected with each other and the community through virtual visits, e-mail and access to monthly calendars, newsletters, brain fitness games and much more.

- Monthly Notices
- Event Calendars
- Menus
- Slide Shows of Events
- Community Newsletters
- Picture Driven email
- Easy Web Video Chat
- Movies
- Books and Audio Books
- Museums & Travel
- Music
- Brain Games
- News
- and much more...

## Residents & Family Members –

***JOIN US***
